Professional Summary

Experienced Full Stack Developer with 4 years of experience designing, developing, and maintaining scalable cloud-based web applications. Skilled in building responsive and user-friendly interfaces using Angular and React.js, and developing robust backend services and RESTful APIs using Node.js. Passionate about delivering high-performance, maintainable, and scalable software solutions. Strong expertise in JavaScript, TypeScript, API development, database optimization, and modern web application architecture.

Skills

Front-end – AngularJS, JavaScript, TypeScript, React JS, HTML, CSS, Bootstrap, Material UI

Back-end – Node.js, Express.js, Microservices Architecture

Database – MySQL, MS-SQL, MongoDB

Testing – Jest, Postman

Cloud – AWS (Lambda, S3)

ETL & BI – Talend, Snowflake, Power BI

Version Control – Git, GitHub, Bitbucket

Tools – ClickUp, JIRA

Professional Experience

DALVKOT UTILITY ENTERPRISES PRIVATE LIMITED

09/2025 – Present | Bangalore

Full Stack Developer

- Developed and maintained enterprise applications including CMS, HMS, and HRMS using Angular and Node.js, supporting patient management, payroll, attendance, billing, and reporting modules.
- Designed and implemented responsive frontend components, scalable backend services, and RESTful APIs following MVC architecture to improve application performance and maintainability.
- Delivered end-to-end development of key business modules, including appointment scheduling, patient records, employee management, payroll processing, and reporting solutions.
- Enhanced application performance through frontend optimization, API improvements, and efficient application design, ensuring a seamless user experience.
- Utilized Jira and Bitbucket in Agile development environments for sprint planning, code reviews, issue tracking, and release management.
- Collaborated with QA, DevOps, and cross-functional teams to support deployments, troubleshoot production issues, and deliver high-quality software solutions.

PARIPOORNA SOFTWARE (P) LIMITED

06/2023 – 04/2025 | Chennai

Cloud Developer

- Developed dynamic, data-driven user interfaces using Angular, reusable components, and shared modules, improving application scalability and user experience.
- Built and maintained scalable RESTful APIs using Node.js and Express.js, and migrated legacy backend services from PHP to Node.js to enhance system performance and maintainability.
- Designed and optimized MySQL and MSSQL database solutions, including SQL queries and stored procedures, to support business-critical operations.

- Developed ETL pipelines using Talend and integrated Snowflake with Power BI to deliver real-time analytics, reporting, and business insights for a Loan Management System.
- Collaborated with cross-functional teams in Agile environments to deliver high-quality software solutions, troubleshoot production issues, and ensure timely project delivery.

TEST YANTRA SOFTWARE SOLUTIONS

12/2021 – 05/2023 | Bangalore

Associate Software Engineer

- Developed scalable backend services and RESTful APIs for insurance and appointment management systems using Node.js and Express.js.
- Designed and optimized MySQL database solutions, including schema design, SQL queries, and stored procedures.
- Integrated SendGrid and Slack APIs, automating notifications and communication workflows across applications.
- Implemented API documentation with Swagger UI and performed API validation and automated testing using Postman and Jest.
- Troubleshoot production issues, enhanced React.js application stability, and delivered secure, high-performance healthcare solutions.

Projects

Healthcare Management System (HMS): Angular, Node.js, MySQL

Human Resource Management System (HRMS): Angular, Express.js, Node.js, MySQL

College Management System (CMS): Angular, Node.js, Express.js, MySQL

Logistics Management : Ionic Angular, Node.js, Express.js, MS-SQL Server

Banking System: Talend Tool, Power BI, Snowflake

Social Networking & Matchmaking Application (Backend): Node.js, MySQL

Appointment Booking System: React.js, Node.js, MySQL, Microservices

Education

Bachelor of Technology in Civil Engineering

2018 – 2021

Siddharth Institute of Engineering and Technology

CGPA: 8.54
